### It has the power to kill.

When dealing with electricity there are 'The rules that teach a boy to be a man'. For example, always assume it's alive; hold the plug not the wire; and don't try to make repairs, if not qualified. Many, many more sensible guidelines are included to ensure that electricity is treated with respect. Remember, don't bet your life taking chances.

### Use Electricity Safely.

This topic focuses on the reality that electricity needs to be treated with respect and offers a large number of Safety-Related Work Practices. While lockout/tagout information is provided for heavy industrial equipment, a great deal of information centers on the safe use of portable electrical tools. Teach the ABCs –Always Be Careful.

### Tests using mannequins show the hazards of an arcing fault.

The anatomy of an arc fault is fully explained in this Safety Outline. This topic will help workers understand the latest National Electrical Code arc protection standards and the safety procedures they MUST adopt when working on, with or near electrical circuitry. 'Quick as a flash', they could be gone. Don't let it happen.

## WHAT YOU CAN'T SEE CAN HARM YOU...

## TAKE CARE WHEN USING ELECTRICITY

# 139

 [zoom](#)

Available in: English, French, Spanish

### What you can't see can harm you...

This is an excellent checklist of electricity safety practices. Details include water and dampness hazards, using suitably insulated PPE, safety practices for both portable and fixed equipment, and lockout/tagout procedures are covered. As is a whole list of "do's and don'ts" when working on, with or near exposed energized parts. Really worth your attention!

## Check your Equipment. Don't be a Live Wire!

Available in: English, French, Spanish

### Check your equipment. Don't be a live wire!

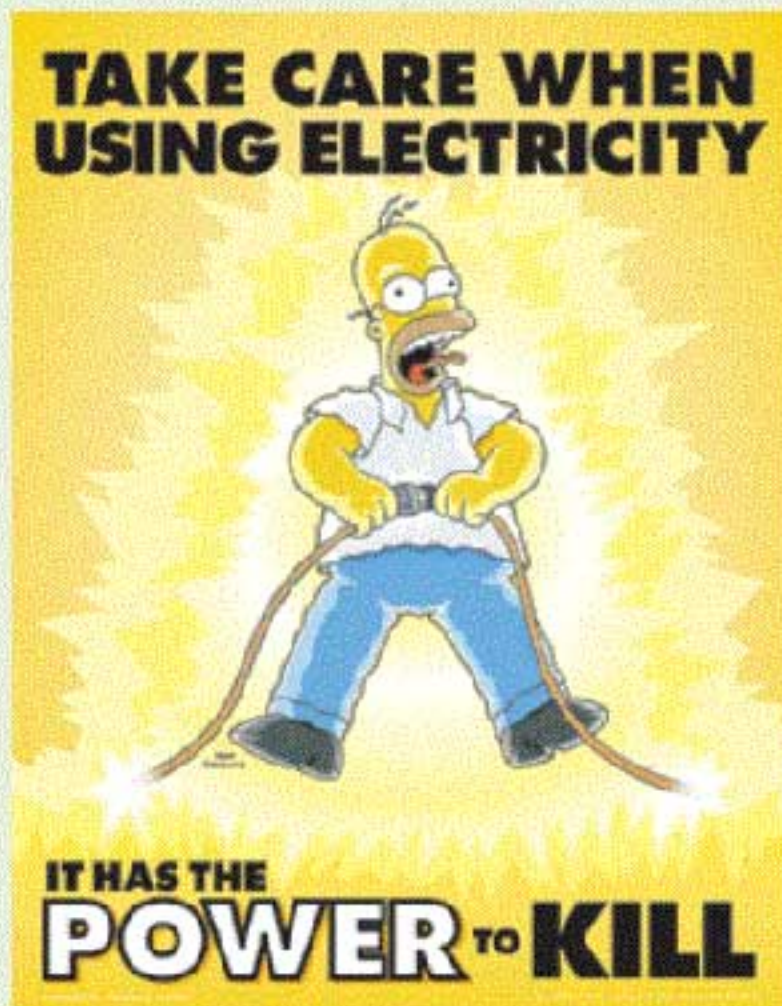

The old adage, "Never Assume", really applies here. With electricity, ALWAYS ASSUME IT'S LIVE. This handy Outline can be used as a basic training primer to introduce workers to eight working rules that can save lives when working on, with or near electrical equipment. With electricity, if in doubt always check it out!
